

For all new eavestrough installations, this patented continuous hanger system replaces hidden hangers or spikes and ferrules. It adds so much durability to the eavestrough that three men can hang from it! And the eavestrough is now maintenance-free.

Fixa-Tech:

- Can be installed on most new eavestroughs – 5 in. or 6 in.
- Supports 250 pounds per linear foot – enough to withstand ice and snow coming off the roof – or even three men!
- No need for hidden hangers or spikes and ferrules
- Prevents eavestrough crunching from ladders
- Prevents debris from getting into eavestrough and drains
- Can drain 32,7 in. of water per hour - up to 3 times the most important rainfall registered
- Made of aluminum – no corrosion and weather resistant
- 25-year warranty on finish and 10-year warranty on performance
- Patented and manufactured in Canada by Alu-Rex

Gutter Clean System

For all existing eavestroughs, this patented eavestrough protection system puts an end to clogs, overflows, and eavestrough cleaning. The eavestrough is now maintenance-free.

- Can be installed on most existing eavestroughs– 5 in. or 6 in.
- Prevents debris from getting into eavestroughs and drains
- Can drain 32,7 in. of water per hour – up to 3 times the most important rainfall registered
- Made of aluminum or copper – no corrosion and weather resistant
- 25-year warranty on finish and 10-year warranty on performance
- Patented and manufactured in Canada by Alu-Rex
